WILBOR'S COMPOUND OF PURE COD LIVER OIL AND LIME.

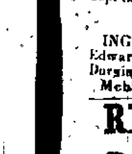

A CURE FOR CONSUMPTION, COUGHS, COLDS, ASTHMA, BRONCHITIS, GENERAL DEBILITY, AND ALL SCROFULOUS HUMORS.

THE Proprietor has succeeded (from directions of Professor Stone) in combining the Oil and Lime so perfectly that the taste of the Oil, which is so nauseous to persons generally, is entirely overcome, and it can be taken by the most delicate females with pleasure. And as regards the benefit of this article over the clear oil, the following case, by Prof Stone, is sufficient to convince the most skeptical. The young lady was twenty-four years of age.

"Her disease was one of unmixed phthisis, which had been expected to terminate in the course of a few months, fatally. The upper part of both her lungs were filled with tubercles; and in some places were beginning to soften. The case was evidently a bad one. The treatment of Cod Liver Oil was at first used, but without marked improvement. The Phosphate of Lime was then administered with the Oil, and the result, as in the case of many others, was soon apparent. The patient was rapidly getting well."

CAUTION.—On account of the great reputation of this Compound for all Lung complaints, the subscriber would caution the afflicted against using any except that manufactured by him, as he has the only recipe in the United States for combining the pure Oil with Lime in a proper manner. Therefore as you value your health, purchase none except that manufactured by

PATENTS.
American and Foreign Office
AGENCY FOR BUSINESS WITH U. S. PATENT OFFICE, WASHINGTON.
No. 23 State Street, . . Boston.

IMPORTANT INFORMATION TO INVENTORS. The subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments, and all necessary papers and drawings for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringements of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can avail themselves of the experience of 20 years practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting one dollar. Assignments recorded at Washington.
R. H. EDDY, *Solicitor of Patents.*

"During the time I occupied the Office of Commissioner of Patents, R. H. Eddy, Esq. of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE, *Late Commissioner of Patents.*"

TESTIMONIALS.

The following certificate from Dr. John C. Warren, of Boston, was given 17 years since, but will last forever.

Boston, Jan. 5 1853.
Having had occasion to observe that some persons afflicted with Hernia, have suffered much from the want of a skillful workman in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr. J. F. Foster to supply the deficiency occasioned by the death of Mr. Beath.—After some months of observation of his work, I am well satisfied that Mr. Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating to the variety of cases which occur. I feel called upon to recommend him to my professional brethren, and to the public as a person well fitted to supply their wants in regard to these important articles.
JOHN C. WARREN, M.D.

The undersigned take great pleasure in recommending to the favorable consideration of those who are unhappily afflicted with Hernia, Mr. James Frederick Foster, as a skilful and competent person in the manufacture and fitting of Trusses. We have employed him (some of us over twenty years) and therefore speak from personal knowledge of his abilities. His early advantages, his long experience in the business, and the large number of individuals whom he has relieved in a variety of cases, render him, in our opinion, equal, if not superior, to any manufacturer of this article. His father, Dea. Gideon Foster, of Charlestown, was master of the [illegible] in that town for upwards of twenty-four years, during which period Mr. Foster availed himself of the opportunity, and made application of Trusses to a great variety of cases, with great success, some of which were of a very complicated and distressing character.

It is well known to all who have occasion to wear a Truss, that its great excellence consists in its adaptation to the body, at the same time relieving the patient. Any ordinary mechanic may make a Truss, but none but a skillful practitioner can apply it in such a manner as effectually, and oftentimes radically cure the complaint.

Our experience has convinced us that Mr. Foster has thoroughly attained this knowledge. The certificate of Dr. J. C. Warren, and other eminent surgeons, which he shows to us, fully sustain the opinion we here express.

Straight Needle Perpendicular Action
SEWING MACHINE!
Secured by Two Distinct Patents!

THESE extraordinary Machines have had numerous diplomas and medals awarded to them, as the best sewing machines ever devised. They now form one of the most attractive features of the Great Exhibition at the Crystal Palace in New York.

The proprietors having perfected their great manufactory in New York, are now able to produce the Machines at a cheaper rate, and have determined to give the benefit to the public, by reducing the price $25. Hereafter these unrivalled Machines will be sold at either of our regular offices for

$100 Cash, without deduction or discount.

Of the admirable qualities of these Machines for all the work of the Clothier, Tailor, Shoe Manufacturer, Saddler, Carriage Trimmer, Cap Maker, and Corset Maker, it is unnecessary to speak.—The character of the machines for these branches of business is established, and they are known and admitted to be the most perfect instruments for the purpose ever devised. The clear profit on each machine is from $600 to $1000 a year, depending on the fineness and difficulty of the work done.—We desire to call the particular attention of Shirt and Collar manufacturers to our machine for stitching fine linen and cotton goods. We can satisfy any person interested that no other machine has ever done or can do this kind of stitching perfectly. The price of the machine includes the necessary articles for using. When ordered, they are packed, complete for immediate use, and full printed directions for using are furnished.

Either of the Express companies, or merchants visiting the places where our offices are located, afford a convenient medium for purchasing machines.

Admirable Invention!
PATENT SELF HEATING
SMOOTHING IRON!

MANY important improvements have been made since the beginning of the present century, relieving and facilitating the labor of men by machinery and other modern implements; but females have been nearly neglected until the introduction of the *Patent Self Heating Smoothing Iron*, which will relieve them in a very great degree, from the excessive and fatiguing labor of *Ironing*, besides being a great saving of time and expense. This Iron combines economy, convenience, saving of labor, and despatch; one cent's worth of dry charcoal supplies fuel for a whole days' constant ironing. Hard wood coal from the stove will answer the same purpose. It can be used in any room or in the open air. Hatters' and Tailors' Irons are constructed upon the same principle, and possess equal superiority.

VEGETABLE TINCTURE!
The Great Restorative and Invigorator of the System.

This article, which has made so many wonderful cures, was discovered by Dr. Jesse Hampton, of Louisville, Ky., now in fine health in the 70th year of his age, and is acknowledged by those who have used it to be the best family medicine in use; and is *warranted free from all mineral substances*. By its mild action on the Stomach, Liver and Kidneys, it will cure the diseases of those organs, with all Chronic Complaints, as *Dyspepsia, Cough, Asthma, Bronchial and Lung Affections*, Pains in the Back, Side and Breast, Consumption, Scrofula, Fits, Rheumatism, Gout, Neuralgia, Fistula, Bowel Complaint, Worms, and Nervous Debility, with all diseases arising from Impure Blood. As a Female Medicine it has no equal. It will change the complexion from a pallid to a blooming one.

Great Excitement!
Among Carriage Makers.

THE subscribers have purchased the right to make, use and sell
Everett's Patent Coupling
for the Counties of Penobscot, Piscataquis, Waldo, Hancock, Washington and Aroostook. The advantages of the above Coupling, over the old method of constructing the main part of the Carriage with the front part, is such that it must come into general use when it is properly understood. High forward wheels can be used and we get rid of the galling irons, as the wheels do not strike the body, and the carriage turns in a very small compass, the hind wheels not describing more than 4 to 6 feet circle. It is perfectly simple, and not so liable to get out of order as the old method. Those who have used the above are fully satisfied of its utility, as certificates below show. It can be attached to old carriages at a small expense, and we are prepared to sell the right for shops, towns, and would sell a part of the above named Counties, at such a rate that any smart man, with a small capital, could realize a great profit from the sale of the above. Any person wishing information will receive immediate attention at our place of business, or by dropping us a line by mail, post-paid.

PROFESSOR ALEX. C. BARRY'S
TRICOPHEROUS,
or Medicated Compound,

FOR beautifying, improving, and preserving the Hair, curing cuts, bruises, burns, stings, rheumatism, and all irritations of the skin. A preparation, the sale of which amounts to one million of bottles annually, would seem to need no advertisement; but as the thousands who purchase, use and approve of it, have probably no idea of the enormous extent of the business done by Professor Barry, he gives herewith a plain statement of facts derived from his books, and with them tenders his earnest and hearty thanks to his innumerable patrons.

Professor Barry's accounts of sales for the year 1852, show that during that year about 910,000 bottles of his Tricopherous were disposed of, and that the cash product of this immense sale was nearly $100,000.

This plain, unvarnished tale, is a better commentary on the value of the article than any thing its inventor could say. If it were not peerless in its effect upon the hair—if it were not invaluable as a household remedy for cuts, bruises, burns, skin diseases, &c.—it would not, of course, be so universally in demand. The wealthy portion of the public would buy it at any price, but Professor Barry has reduced it to a figure so low that the poorest can avail themselves of its benefits.

Sold in large bottles [price 25 cents] at wholesale and retail, at the manufactory and depot 137 Broadway, New York and by the principal merchants and druggists throughout the United States and Canada, Mexico, West Indies, Great Britain, France, &c.

HOT CORN.

ABOUT a week ago, says the *New York Tribune*, we published a little story under this title, detailing some of the sufferings which crime and misery bring upon the poor of this city, and hinted at the cause. That story is not yet finished. The next night after the interview with that neglected, ill-used little girl, the same plaintive cry of "Hot corn, hot corn, here is your nice, hot corn," came up through our open window on the midnight air, while the rain dripping down from the over charged clouds in just sufficient quantity to wet the thin single garment of the owner of that sweet young voice, without giving her an acceptable excuse for leaving her post before her hard task was completed. At length the voice grew faint and then ceased, and then we knew that exhausted nature slept—that a tender house-plant was exposed to the chilling influence of a night rain—that an innocent little girl had the curb stone for a bed and an iron post for a pillow—that by and by she would awaken, not invigorated with refreshing slumber, but poisoned with the sleep-inhaled miasma of the filth-reeking gutter at her feet, which may be breathed with impunity awake, but like the malaria of our Southern coast is death to the sleeper. Not soothed by a dreamy consciousness of hearing a mother's voice, tuning the soft lullaby of

"Hush, my child, lie still and slumber;"

but starting like a sentinel upon a savage frontier post, with alarm at having slept; shivering with night air and fear, and finally compelled to go home trembling like a culprit, to hear the hard words of a mother—yes, a mother—but oh! what a mother—cursing her for not performing an impossibility, because exhausted nature slept—because her child had not made a profit which would have enabled her to indulge more freely in the soul and body destroying vice of drunkenness, to which she had fallen from an estate when my carriage' was one of the 'household words' which used to greet the young ears of that poor little death-stricken, neglected street sufferer.

It was past midnight when she awoke, and found herself with a desperate effort just able to reach the bottom of the ricketty stairs which led to her *home*. We shall not go up now. In a little while, reader, you shall see where live the city poor.

Tired—worn with the daily toil—for such is the work of an editor who caters for the appetites of his morning readers—we were not present the next night to note the absence of that cry from its accustomed spot; but the next and next, and still on we listened in vain—that voice was not there. True the same hot-corn cry came floating upon the evening breeze across the park, or wormed its way from some cracked fiddle-voice down the street, up and around the corner; or out of some dark alley with a broken English accent, that sounded almost as much like 'lager bier' as it did like the commodity the immigrant, struggling to eke out his precarious existence, wished to sell. All over this great poverty-burdened, and wicked waste extravagant city, at this season, that cry goes up nightly, proclaiming one of the habits of this supper-eating people.

Yes, we missed that cry. 'Hot-corn' was no longer like the music of a stringed instrument to a weary man, for the treble string was broken, and, to us, the harmony spoiled.

What was that voice to us? It was but one of the ten thousand, just as miserable, which may be daily heard where human misery has its abode. That voice, as some others have, did not haunt us, but its absence, in spite of all reasoning made us feel uneasy. We do not believe in spirit manifestations half as strongly as some of the silly ones of this world would have their long eared listeners think, yet we do believe there is a spirit in man, not yet made manifest, which makes us yearn after co-existing spirits in this sphere and this life, and that there is no need of going beyond it, seeking after strange idols.

We shall not stop to enquire whether it was a spirit of 'the first, third or sixth sphere,' that prompted us, as we left our desk one evening, to go down among the abodes of the poor, with a feeling of certainty that we should see or hear something of the lost voice, for that spirit led us on; perhaps it was the spirit of curiosity; no matter, it led, and we followed in that route we had seen that little one go before—it was our only clue, as we knew no name—had no number, nor knew no one who knew her whom we were going to find. Yes, we knew that good Missionary, and she had told us of the good words which he had spoken, but would he know her from the hundred just like her? Perhaps. It will cost nothing to inquire. We went down Centre street with a light heart; we turned into Cross street with a step buoyed by hope; we stood at the corner of Little Water street, and looked round inquiringly of the spirit, and mentally said, 'which way now?' The answer was a far-off scream of despair.

We stood still with an open ear, for the sound of prayer, followed by a sweet hymn of praise to God, went up from the site of the Old Brewery, in which we joined, thankful that that was no longer the abode of all the worst crimes ever concentrated under one roof. Hark, a step approaches. Our unseen guide whispered, 'ask him.' It were a curious question to ask a stranger, in such a strange place, particularly one like him, haggard with over much care, toil or mental labor; prematurely old, his days shortened by over-work in young years, as his furrowed face and almost phrensied eye hurriedly indicates, as we see the flash of the lamp upon his dark visage, as he approaches with that peculiar American step which impels the body forward at railroad speed. Shall we get out of his way before he walks over us? What if he is a crazy man? No; the spirit was right—no false raps here. It is that good missionary—that man who has done more to reform that den of crime, the Five Points of New York, than all the municipal authorities of this police-hunting and prison punishing city, where misfortune is deemed a crime, or the unfortunate driven to it by the way they are treated, instead of being reformed or strengthened in their resolution to reform, by kind words rather than prison bars.

'Sir,' said Mr. Pease, 'what brings you here at this time of night, for I know there is an object; can I aid you?'

'Perhaps, I don't know—a foolish whim—a little child—one of the miserable, with a drunken mother.'

'Come with me, then. There are many such. I am just going to see one, who will die before morning—a sweet little girl; born in better days, but dying now—but you shall see, and then we will talk about the one you would seek to save.'

We were soon threading a narrow alley, where pestilence walketh in darkness, and crime, wretched poverty and filthy misery, go hand in hand to destruction.

'Behold,' said our friend, 'the fruits of our city excise. Here is the profit of money spent for license to kill the body and damn the soul.' Proven by the awful curses and loud blows of a drunken husband upon a wife, once an ornament to society, and an exemplary member of a

Christian church, that came up out of one of the low cellars which human beings call by the holy name of home.

The fetid odor of this filthy lane had been made still more fetid by the late and almost scalding hot rains, until it seemed to us that such an air was only fit for a charnel house.—With the thermometer at 86, at midnight, how could men live in such a place, below the surface of the earth. Has rum rendered them proof against the effect of carbonic acid gas?

We groped our way along to the foot of a staircase, when our conductor paused for a moment, calling our attention to the spot.

'Here,' said Mr Pease, 'the little sufferer we are going to see fainted a few nights ago, and lay all night exposed to the rain, where she was found and beaten in the morning by her miserable mother, because she had not sold all her corn.'

'Great and Unknown Cause, hast Thou bro't us to her door?' Our friend started, but did not comprehend the expression.

'Be careful,' said he, 'the stairs are very old and slippery.'

'Beat her,' said we, without regarding what he was saying.

'Yes, beat her, while she was in a fever of delirium, from which she has never rallied. She has never spoken rationally since she was taken. Her constant prayer seems to be to see some particular person before she dies.'

'Oh, if I could see him once more—there—there—that is him—no, no he did not speak that way to me—he did not curse and beat me.'

'Such is her conversation, and that induced her mother to send for me, but I was not the man. 'Will he come?' she says, every time I visit her, for, thinking to soothe and comfort her, I promised to bring him.'

We had reached the top of the stairs, and stood a moment at the open door, where sin and misery dwelt, where sickness had come, and where death would soon enter.

'Will he come?'

A faint voice came up from a low bed in one corner seen by the very dim light of a miserable lamp.

That voice. We could not be mistaken. We could not enter. Let us wait a moment in the open air for there is a choking sensation coming over us.

Come in,' said our friend.

Will he come!

Two hands were stretched out imploringly toward the missionary, as the sound of his voice was recognized.

She is much weaker to night,' said her mother, in quite a fairy like manner, for the sense of her drunken wrong to her dying child had kept her sober ever since she had been sick, 'but she is quite delirious, and all the time talking about some man that spoke kindly to her one night, and gave her money to buy bread.'

'Will he come?'

Yes, yes, through the guidance of the Good Spirit that guides the world, and leads us by unseen paths, through dark places, *he has come*.

The little emaciated form started up in bed, and a pair of beautiful soft blue eyes glanced around the room, peering through the semi darkness, as if in search of something heard but unseen.

'Katy, darling,' said the mother, 'what is the matter?'

'Where is he, mother? He is here. I heard him speak.

'Yes, yes, sweet little innocent, he is here, kneeling by your bedside. There, lie down, you are very sick.'

'Only once, just once, let me put my arms around your neck, and kiss you just as I used to kiss papa. I had a papa once, when we used to live in the big house—there, there——, Oh, I did want to see you to thank you for the bread and the cakes, I was very hungry, and it did taste so good—and little sis, she waked up, and she ate and ate, and after a while she went to sleep with a piece in her hand and I went to sleep, haven't I been asleep a good while? I thought I was asleep in the Park, and somebody stole all my corn, and my mother whipt me for it, but I could not help it. Oh, dear I feel sleepy, now. I can't talk any more. I am very tired. I can not see, the candle has gone out. I think I am going to die. I thank you, I wanted to thank you for the bread—I thought you would not come. Good bye sisse, good bye, sisse—you will come—mother—don't—drink—any more—mother—good b——'

'Tis the last of earth,' said the good man at our side—let us pray.'

Reader, Christian reader, little Katy is in her grave. Prayers for her are unavailing. There are in this city a thousand just such cases—Prayers for them are unavailing. Faith without works won't work reform. A faithful, prayerful resolution to work out that reform which will save you from reading the recital of such scenes—such ruins of the rum trade as this before you, will work together for your own and others' good. Go forth and listen. If you hear a little voice crying *hot corn*, think of poor Katy, and of the host of innocents slain by that remorseless tyrant, rum. Go forth and seek a better spirit to rule over us. Cry aloud, 'will he come?' and the answer will be 'yes, yes he is here.'

The National Horse Exhibition

This affair, which is to come off at Springfield on the 19th of October, promises to surpass in extent and in interest anything of the kind ever before witnessed in this country. As the interest in the exhibition appears to increase throughout the country, the local committee are most assiduously at work perfecting their arrangements to increase its attractions. Besides the exhibition of horses, which alone will well repay a long journey to witness, it is proposed to have a Grand Agricultural Banquet, with two prominent features, viz: earnest, eloquent and popular addresses, and a large and magnificent display of Fruits and Flowers. To secure the last, premiums and medals will be offered for the best collections and specimens. The whole affair will be under the supervision of the National Agricultural Society. The committee to award prizes is to be selected from eminent and skillful men from various parts of the Union. Neither expense nor labor will be spared to make the exhibition worthy of the country.

A Clergyman of the Church of England taking the Veil.—We hope our Episcopal neighbors will not be unduly excited by the announcement. The circumstances of the case, as far as we have learned them are as follows: The Queen and a great number of her subjects visited the camp at Chobham, and a light blue veil, which Her Majesty wore during the day, getting unloosed became the object of a fierce struggle among those of the spectators near whom it fell. It was secured by one of the surpassing number of clergymen who flock to witness the military displays of the camp. The reverend gentleman, however, was not permitted to retain his prize, the same fortune of war which brought it into his possession restoring it immediately after to its rightful owner.
[English paper.

The late English papers inform us that Mrs Petre, the widow and sole devisee of the late Hon. E. Petre of Selby, has taken the veil in France, and that in consequence the whole of her large property will go to the funds of her convent. The estate of Selby alone she has recently sold to Lord Londesborough for £270 000, or one million three hundred thousand dollars.

A new edition of Lord Mahon's History of England contains a letter from Mr Macaulay in reply to the objections made by the Quarterly Review to Mr Macaulay's theory that France [illegible].

THURSDAY, SEPT. 22, 1853.

☞ A correspondent of the Gardiner Transcript, gives an account of the operations of the Diving Bell Company, in endeavoring to recover the treasures burned in the sea by the destruction of the ship San Pedro Alcantara, the pride of the Spanish Navy, blown up in 1815, while lying at anchor between the islands of Coche and Cuagua, with $3,500,000.

This company is from the Kennebec and have operated on several wrecks, but in no case, we believe, to very great profit. After spending about six months with this wreck, and vainly attempting to blast it, only between six and seven thousand dollars were obtained.

The San Pedro bore on her own decks, beside the iron chest of the army, a large quantity of artillery, consisting of 18 brass pieces, and five or six of iron, for field service, which has since been recovered.

The attention of some citizens of Baltimore was first attracted to this matter about 15 years ago by Antonio Vallanilla, then Venezuelan, Minister to the United States. A vessel with apparatus for diving was fitted out, which made six voyages to the wreck, and was finally sold (the machinery) to Capt Tower, of Mass, who made two more voyages, making eight in all, before this company's adventure, and according to accounts, getting less than $100,000. About the wreck the water is between 60 and 70 feet deep with muddy bottom, in some places so soft that one would sink to his middle. Farther eastern the water is more shallow and the bottom becomes harder, until at one cable's length, the bottom is coral beneath five or six inches of white sand, with eight fathoms of water.

The ground on which specie is found, is in the form of a half open fan, the narrow part next to the wreck; it is about one cable's length broad, at the widest end, and one and a half in length. Over this ground are scattered fragments of the wreck, copper and iron bolts and spikes, round and bar shot, occasionally an iron gun and specie.

Public Fruit Supper at the City Hall on this evening.

The annual public Fruit Supper of the Mechanics' Association will be held at the City Hall on this, Thursday evening, to which the public attention is directed. The Hall is beautifully decorated, and the Brass Band will be in attendance for the purpose of furnishing good music.

These annual gatherings of the Association and their friends, have long been marked by high social and intellectual enjoyment, as well as by the choicest selection of fruits, domestic and foreign. The committee have never been more successful than the present season, and we anticipate a grand time. See notice in another column.

☞ The Bangor Democrat contains a feeble letter signed "A Peabody, and addressed to the publishers of this paper, upon the principle, we suppose of Jack Downing, to save postage. The paragraph quoted in the letter was written by the editor of the Whig, and he meant just what he wrote, and he is ready to defend the justness of his conclusions, that a man who will make false statements to an editor for the purpose of deceiving him in a matter of public interest deserves a kick. We have a mind to add that the man who has so treated us must keep out of our way or we will give him what we think he deserves.

The Law and The Testimony. By the author of 'The Wide Wide World.' New York. Robert Carter & Brothers 1853.

This is a large, handsome volume, well printed on a good type, of eight hundred and forty pages.

The design of the work is to set together the mass of scripture testimony on the following subjects. The Divine Nature, Divinity of the Savior, Divinity of the Holy Spirit, God's Omniscience, God's Universal Government, God's Sovereignty, God's Regard for His glory, God's Justice, God's Goodness, Christ administers the Divine Government on Earth, Christ's Prophetic office, Christ's Priestly office, Office of the Holy Spirit, Man's Freedom, Man's Fall, The Nature of Sin, Imputation of Sin, The Prevalence of Sin, Consequences of Sin, Repentance, Faith, What? Importance of Faith, Salvation by Faith, Imputation of Righteousness, Justification, Duty of Holiness, The Judgment, Hell, What.

Upon these subjects the dispersed forces of the Bible are brought together and formed into a solid phalanx, shoulder to shoulder upon each of these subjects. In this way the Bible witnesses give their testimony upon each topic here presented, from a variety of circumstances and different occasions, yet when brought together are found to throw a strong light, at least so far as to show all the strong passages believed to bear upon the point, and apparently bearing upon each point.

It will aid those who have not the time or the ability to look up all this scattered testimony, in getting a view of it thus brought together, and those who propose to themselves a similar plan of investigation, may here find no little help in the way of settling questions of doubt.

This work may be found at the Bookstore of E F. Duren near the Post Office.

☞ There was a copious rain yesterday, and it is hoped that it will do something in the way of starting the mills that have so long been hung up for the want of water. The market is almost bare of lumber, the short supply and the great demand have combined to run the stocks much closer than for several years past.

☞ The Rev Antoinette L Brown was ordained as pastor of a Baptist church at South Butler, N Y, on Thursday last. Gerrit Smith was present, and made a brief address. The sermon on the occasion was preached by Rev Mr Lee of Syracuse. Dr. Harriet K. Hunt of Boston was present.

☞ Constable John Bussed on Monday last seized twelve barrels of liquor in the town of Brewer, opposite this city.

REPORT
Of the Floral Committee of the Bangor Horticultural Society.

The Committee are pleased in being able to report a larger and better show of flowers than at the former exhibition, notwithstanding the number of exhibitors were less than usual. Had the smiles of the ladies greeted the occasion, as unanimously as before, there would doubtless have been the best display of flowers ever shown in this city.

Any want of general interest in this department is to be the more regretted, as we have no other exhibition of flowers during the year. By the well directed efforts of the Executive Committee, the Hall was prettily and appropriately wreathed and festooned with flowers, evergreens, &c.

Four well arranged boquets, of Dahlias, Asters, Helianthus, Flox, &c., and a pyramid of double Sunflowers and Hollyhock, were sent in by Mrs. John S Sayward.

Several most beautiful and tastefully arranged boquets composed of Flox, African Lilly, Honeysuckle, Petunias, Gladiolus, &c &c, were sent in by Mrs I S Whitman, together with a pretty Basket design in Moss filled with rich flowers, a wrought Basket of flowers, and a splendid Vase of sixty varieties of grain and grasses, attracted the attention of all, as did also, the moss raised of beautiful "California wild flowers" prepared and exhibited by the same lady.

Two beautifully arranged boquets of rich flowers, by Mrs Hayward Pearce.

A very handsome basket, design by Miss Margaret Beacroft, was admired by all.

The chaste, double basket, design by Mrs Calvin Dwinel, comprising more than twenty varieties of rich flowers, was much admired.

Five handsome boquets, of double Quilled Asters of some twenty varieties, by Albert Noyes.

Three pretty boquets, and two evergreen wreaths, interwoven with flowers, by Miss Sarah E Emerson.

A splendid boquet composed of fifty varieties of flowers, Roses, double pinks, China Asters, &c, &c, by Mrs Benjamin A. Burr.

Handsome boquets by Mrs Walter Brown, Miss Cobina McRuer, Mrs S B Dean, Mrs John M Lander, Mrs R Burr, (of Brewer) Mrs B F Nourse, and Mrs' Webb.

It is regretted that there were several very handsome boquets to which no name was attached as they were well worthy of a premium.

Two elegant boquets composed of a great variety of choice Red and White Roses, and other splendid flowers, which would have been entitled to a premium had they been sent in season by Mrs Samuel Farrar.

Premiums were awarded as follows, viz

To Mrs B A Burr, for the best display of cut flowers, embracing some fifty varieties, the first premium of $2,00

To Mrs Calvin Dwinel the second premium of $1,00,

To Mrs Isaac S Whitman for the best ten varieties $1,00

To Mrs Calvin Dwinel for the next best ten varieties 50 cts

To Miss Sarah E Emerson for the best three Boquets $2,00

To Mrs John S Sayward for the second best $1,00

To Mrs Hayward Pierce for the best two Boquets the first premium of $1,50

To Mrs B. F. Nourse for the best single Boquet the first premium of $1,00.

To Mrs Isaac S Whitman for her beautiful Vase of grasses and grains the committee would recommend a gratuity of a pair of Vases

To Miss Margaret Beacroft for her handsome Basket design, a gratuity of $2,00

Your Committee feel that they would be doing injustice to themselves should they close their report without returning their most sincere thanks to Mrs I S. Whitman, for her warm interest and very essential services rendered in decorating the Hall for the exhibition.

Respectfully submitted

ALBERT EMERSON, ALBERT NOYES, WALTER BROWN, } Committee on Flowers

☞ The Bath Mirror enumerates eleven ship yards at that port, at which there are now on the stocks twelve first class ships, averaging 1200 tons each which, with one exception, are to be launched during the next five or six weeks. Others are to take the place of these as soon as they are launched. It is expected that most of the yards will be occupied through the winter and that not less than fifteen ships will be added to our merchant navy from them during the early summer months of next year.

☞ Messrs Cooper have building at their yard, opposite this city, a ship of fine model of from 1000 to 1200 tons burthen, which will be launched in the course of the next month. We understand that they will commence on another come six hundred tons larger as soon as this is off the stocks.

☞ Arrived at Boston on Saturday, 17th new clipper ship Spitfire (1600 tons burthen) Arey, from Frankfort—in tow of steamer Terror.

☞ Yesterday three barrels of strong beer, taken from the Alhambra, was condemned and destroyed. Fine and costs $25, and the same was paid.

The City Marshal has determined to seize strong beer the same as other liquors.

☞ Six barrels of liquor seized some time since, on May street, by the City Marshal was destroyed on Tuesday, no owner appearing to claim it.

☞ On Tuesday, Marshal Farnham seized two barrels of liquor in a dwelling house occupied by an Irish family.

☞ Norman McNaughton was brought before the Police Court, on Tuesday, for selling liquor, and was fined $10 and costs.

☞ A correspondent of the Mercury, states that Samuel Smith, whig, is elected Representative in the Deer Isle District, by four plurality.

☞ We noticed recently in the garden of Abner R. Hallowell, Esq., specimens of Hulings' Superb Plum, that were the largest we have seen. One of them measured seven inches in circumference.

Meeting of the American Board at Cincinnati.

The Worcester and Western railroad as far as Albany and the Fitchburg and Rutland road as far as Schenectady, have agreed to take persons going to the meeting for the usual fare one way, tickets to be available from Sept 28, to Oct. 14. The two roads through the State of New York—the Central and the Erie—decline making any reduction. From Buffalo and Dunkirk to Cincinnati, the fare is reduced one half. Those who prefer to do so, can take boats at Buffalo or Dunkirk for Cleveland or Sandusky, otherwise, they may go the whole distance by land, via the shore road. The fare from Boston by the Worcester and Western, or by the Fitchburg and Rutland road through Schenectady, Buffalo and Cleveland, to Cincinnati, and back, will probably be from $20 to $25.

Tickets for either of the routes to Albany or Schenectady, will be for sale at the Missionary House, 33 Pemberton Square, Boston, also at the Fitchburg and Worcester depots in this city, at the Groton Junction, Fitchburg, Keene, Bellows Falls, Rutland and Whitehall, as well as Worcester, Springfield, and Pittsfield.

[From the London Times, of 26th ult.]

English Views of the Present Administration, its Foreign Policy, &c.

The administration of President Pierce has shown no precipitation in sending its diplomatic agents to their respective posts, for it is only within the present week that Mr Buchanan has delivered his credentials to Her Majesty at Osborne, and that Mr Soule is arrived at Paris on his way to Madrid. We as yet know nothing from actual experience of the instructions and conduct of the gentlemen whom Mr Pierce has selected to be the representatives and instruments of his policy abroad, and we are not yet in possession of the causes which appear to have led to a very sudden and violent decline of his popularity in the United States. Probably this change is in some degree the result of the [illegible] by a general election. Mr Pierce will most likely turn out to be a man of fair ordinary capacity and he has just the same number of places to give away which fell for the same purpose to his predecessors, but to those who had formed an exalted notion of his genius and a boundless estimate of his patronage the discovery of these facts is a bitter disappointment and they already avenge themselves on their idol for the extravagant exaggeration they indulged in a few months ago.

At present the new American Government has done nothing of importance. Some of its declarations [illegible] prudent; many of its appointments [illegible] of its actual policy very little is known, except that both the President and Mr Marcy speak with moderation on the questions of the day. As there it may be convenient to remark, that one of the last acts of Mr Fillmore's Administration was to sign a convention with the British Government for the appointment of a Mixed Commission to adjudicate on divers private claims which have sprung up between this country and the United States since the conclusion of the Treaty of Ghent in 1814. The duties of this commission are to be of a strictly judicial character—both Governments bind themselves to abide by its decisions and we have no doubt that this mode of settling private international claims will save a vast deal of diplomatic correspondence, and relieve both States from irritating discussions and an enormous responsibility.

There is, however, an impression from some few expressions in Mr Pierce's inaugural address, which have been repeated by his present colleagues, that the Democratic party now in power are disposed to modify considerably the principles of non intervention which have hitherto been the basis of the foreign policy of the Union, and certainly nothing has tended to confirm this opinion more than the extraordinary choice of Mr Soule to be the American Envoy at Madrid. This gentleman who does not descend from the Anglo-American race and even acquired the English language comparatively late in life, was believed to be one of the great promoters of the [illegible] and invasions intended to separate Cuba from Spain. To select him for the mission to the Court of Madrid was about as wise as it would be to appoint Lord Dudley Stuart to the British Legation at St Petersburg, and the Cuban liberators took care that the full force of this affront should be well understood before Mr Soule sailed from New York.

We must infer that the principal object of that mission is supposed to be a renewal of the propositions for the sale of Cuba, already made by Mr Forsyth and Mr Saunders.

We are really curious to learn whether Mr Soule will present his credentials to the Queen of Spain in the language in which he took leave of the Cuban liberators and the citizens of New York, for, if this is to be the tone of the accredited envoys of the United States, instead of being regarded as the ministers of a friendly nation, they will be shunned and dreaded as incendiaries and [illegible]. Indeed we are surprised that after what was previously known of Mr Soule and this valedictory address, the Court of Spain should submit to receive a declared enemy in the garb of a foreign Minister, and if the Cabinet of Madrid were not sunk to the very dregs of political life such an outrage could not be committed. This state of things is aggravated by the disposition of the people of the United States to applaud and support acts of violence or intimidation committed by American agents abroad, and if the American Government is to adopt the extravagant views of its adherents, it will soon find itself in very different terms with a great part of Europe. These are not the conditions of forbearance and non intervention by which peace has hitherto been preserved between the new world and the old, and if the United States are to take an active part in the political disputes of Europe, they should make a better choice of their agents and bear in mind the responsibility under which they not only act but speak.

The following is from the principal accountant of the wealthy and highly respectable house of Messrs. V[illegible] & Bro of this city and presents one of the MOST WONDERFUL CURES in the annals of medical history.

Mr H G Farrell—Dear Sir: Actuated by a sense of gratefulness, I submit the following as an instance of the utility of your great medicine. My child, three years old was suddenly attacked with a terrible disease which in less than six hours prostrated it into helplessness. The limbs became so rigid that not a joint could be bent, the flesh turned black and cold and entirely deprived of feeling, the eyes fixed, partially closed, and altogether blind; following this was deafness to all sounds, the spine became contracted, and so curved that when lying on its back the head and heels only touched. Indeed the child presented every appearance of being dead. Immediately on the attack the family physician was called in, and for three weeks he labored to restore it to feeling, but all in vain, although it was blistered a dozen times, and various rubefacient liniments applied. A consultation of physicians was then held, but to no purpose, the case was then brought before the Medical Society, but nothing could be suggested which had not already been done, and the doctor then told me he could do nothing more. We then commenced applying your Liniment freely over the entire length of the spine, and you may imagine a parent's joy, when, after a few applications, returning animation was apparent and it rapidly recovered with the exception of the sight which did not become perfect for near a month. The child is now healthy and robust as ever. Five other cases of the same kind occurred previously in my neighborhood, all of which died when there is no doubt if your Liniment had been used, they would have recovered.

HENRY G CLELAND

Peoria, March 1, 1851

A HARD LUMP ON A HORSES BREAST

Mr H. G Farrell—I have used your Arabian Liniment with gratification in several cases, the most remarkable of which was a large lump that appeared on my horses breast. It was very hard appearing to be hard gristle. It remained for nearly a year, when I applied your Liniment, one bottle of which entirely cured it. I can recommend it as the best Liniment I ever used.

JOHN CRAWL.

Peoria, Feb 20, 1846

LOOK OUT FOR COUNTERFEITS

The public are cautioned against another counterfeit, which has lately made its appearance, called W. B. Farrell's Arabian Liniment, the most dangerous of all the counterfeits, because his having the name of Farrell, many will buy it in good faith, without the knowledge that a counterfeit exists, and they will perhaps only discover their error when the spurious mixture has wrought its evil effects.

The genuine article is manufactured only by H. G. Farrell, sole inventor and proprietor, and wholesale druggist, No. 17 Main Street, Peoria Illinois, to whom all applications for Agencies must be addressed. Be sure you get it with the letters H. G. before Farrell's, thus—H. G. FARRELL'S—and his signature on the wrappers, all others are counterfeits.

Sold by INGRAHAM & FULLER, wholesale and retail, Bangor. Also by E. F. Kassell, Oldtown. French & Hamilton, Dexter. Geo. Fletcher, Ellsworth. P O Flaherty, [illegible]. And by regularly authorized agents throughout the United States.

Price 25 and 50 cents and 1 per bottle.

AGENTS WANTED in every town, village and hamlet, in the United States, in which one is not already established. Address H. G. Farrell as above, accompanied with good reference as to character, responsibility, &c.

Green Mountain Vegetable CEMENT

BROKEN China, Glass, Earthen Ware and Fancy Articles, of every description, repaired and mended, making it as strong as before broken without injuring its appearance.

This Cement, which has been proved to be of great strength, will be found particularly useful in every family, the simple manner of its application is alone a recommendation. The adhesive property which it contains is so wonderful that many things will rather break in a fresh place than where they have been mended with it. The variety of purposes for which it may be used are so numerous that it would be difficult to recite them. Its success in mending Glass, China, &c., is extraordinary, no ordinary degree of heat affecting it, and as the joints are scarcely perceptible, articles of this kind may be made useful for years, which otherwise would have been cast away.

John Bunyan's Immortal Allegory

PROBABLY no book, save the Bible, has been so extensively read as Bunyan's inimitable allegory.

The Pilgrim's Progress.

It has been translated into nearly all the different languages of Christendom, and been perused with delight and holy fervor by all nations. Art has lent her attractions in nearly all the forms of illustration, from the rough *Wood Cut* to the exquisite *Steel Engraving!* But to the middle of the nineteenth century and to an American clergyman, are we indebted for the *only pictorial conception* of this immortal work.

The novel and sublime idea of embodying the *entire story*, and transferring the same to a *single picture*, showing the wanderings of Christian from the "City of Destruction" to the Celestial City, presenting at one view to the eye the varied scenes through which he passed, originated with REV. DANIEL WIGHT, of Massachusetts. His truly original and beautiful conception was reduced to a most elegant design by HAMMATT BILLINGS, and from this design JOSEPH ANDREWS, the distinguished historical engraver, has produced, after four years of labor, a picture which will take rank among the most superb and elaborate productions of human genius, taste and skill.

The picture is now ready and will be offered at the Bookstore of the Publishers, and by Agents duly appointed by the Publishers.

Price of India Proofs, $10—Prints, $5.

McFarland's BURGLAR and FIRE PROOF SAFES!

A FEW of these celebrated Safes have arrived from New York, and those who are in want of a superior article, which has been severely tested for the last ten years, in every county, are invited to call and examine them. Read what the *New York Press* say of them in regard to the late great fire in New York. Further comment is unnecessary.

[From the Journal of Commerce, of August 27th.]
"Messrs. B. F. Pond & Hitchcock, of 56 Water street, oil merchants, inform us that their Safe, (one of McFarland's Fire Proof,) at the great fire of the Pearl-st House, although exposed for thirteen hours to the combined effects of burning Rosin and other Oils, and a broken Gas Pipe directly underneath it, preserved their books and papers in the most perfect order. They were not injured in the least manner."

[From the New York Evening Mirror, of Aug. 27th.]
McFARLAND'S SAFES AT THE GREAT FIRE OF THE PEARL STREET HOUSE.—Looking at the ruins of this great fire yesterday, we noticed in Water street several of McFarland's Safes, which were being taken out of the ruins, the insides of which were all in good order. One of them in particular deserves especial notice. It belonged to Messrs Pond and Hitchcock, oil merchants, No. 56 Water street, and was exposed to the very hottest part of the fire, being covered with burning oil and spirits, and directly under a broken gas pipe from which the gas was escaping in large quantities, and producing an intense heat. It remained in this fiery furnace for thirteen hours, and we are informed by Mr. Pond, the owner, that, when opened, his books and papers were found to be in a perfect state of preservation, not even being scorched and hardly bearing the smell of fire, thus proving itself a perfect salamander. Every merchant should examine them and convince himself of their fire-proof qualities, as some half dozen others of the same make were in the fire, and every one preserved its contents from the least damage.

[From the New York Tribune of August 30th.]
The reputation of McFarland's celebrated Fire Proof Safes have lost nothing at the last great fires, as usual preserving their contents uninjured, and saving many thousands of dollars for their owners. These safes have built for themselves a colossal reputation, and are adding to it at every fire. McFarland's motto is "Excelsior."

[From the New York Herald of Aug. 25th]
Another convincing proof of the superiority of McFarland's Fire Proof Safes over all others as a protection against fire, is the Safe which can now be seen at the ruins of the great fire on Tuesday night, at the Pearl-st House, where it was exposed in the oil store of Messrs. Pond & Hitchcock, No. 56 Water-st, for thirteen hours to the combined effects of burning oil and spirits. Books and papers inside were not even scorched.

☞ These Safes are for sale at No. 49 West Market Square, Bangor.

Self Acquired Fame!

DR. JOHNSON'S

AMERICAN ANODYNE LINIMENT.

For Internal and External Use.

THIS wonderful Medicine, notwithstanding it has never had the advantage of newspaper publicity, has yet acquired a higher and more extended popularity than any other similar compound in the world.   It is entirely of vegetable extract, perfectly safe to be administered even to the most delicate child, and alike astonishing and satisfactory in its effects upon man or beast   To those unacquainted with this invaluable medicine we say, Give it a fair trial, and we promise you a radical cure of Coughs, Colds, Asthma, Bronchitis, Whooping Cough, Influenza, Spitting of Blood, and all Lung Complaints, Chronic Diarrhoea, and Dysentery, in all of which cases it should be used internally   The effects of its external application in cases of Rheumatism, Spinal Diseases, Sprains, Chapped Hands, Bruises, Burns, and all descriptions of wounds are magical   Persons troubled with Cramp in the Stomach, Side, or Bowels, Sore Throat, Piles, &c by a combined internal and external application of this Anodyne, cannot fail of certain and speedy cure   The proprietor can produce volumes of testimonials to its favor, but prefers to let it carry its own recommendations, as it has done for for 7 years past   We ask no man to use it after an unsatisfactory trial   In its composition it unites several of the most penetrating and healing specifics known to the materia medica—The inventor of this article was in the constant and successful practice of medicine for more than twenty years

This is to certify that having been disabled for a number of years with a distressing cough and bleeding at the lungs, and receiving no benefit from medical aid, in 1848 I was to all appearance in the last stage of consumption   My legs swelled so that I was unable to stand or help myself   At that time your Liniment was providentially recommended to me and by the use of three or four bottles I was entirely cured, and I have since been able to labor every day   I have also for the last twenty years been subject to severe attacks of bloody dysentery, and I never found any permanent relief until I took your Liniment, since which I have had no return of the complaint   I can truly say I think your Anodyne Liniment was the means of saving my life   JOHN T ATKINS
Brewer, Sept. 29, 1852

Dr. Johnson: Dear Sir—In consequence of having a fever sore on my leg, it became entirely stiff at the knee, and it was decided by the best surgeons that my leg must be amputated—but fortunately I heard of your Anodyne Liniment, and by using three bottles, my leg was limbered and strengthened, and for a number of years I have been able to use it about as well as the other   I consider myself indebted in the use of your Liniment through the blessing of Providence, for the use of my leg, and would say to others who may need help in this way, try it, and no doubt you will be cured   RUFUS CHAPMAN

HEALTH FOR THE STATES!

HOLLOWAY'S PILLS.

EXTRAORDINARY CURE OF LOSS OF HEALTH, A DISORDERED STOMACH, INDIGESTION, AND DETERMINATION OF BLOOD TO THE HEAD.

Extract of a Letter from Mr John Lloyd, of Erw wen, near Harlech, Merionethshire

To Professor HOLLOWAY,

Sir,—I avail myself of the first opportunity of informing you that for a very long period I was afflicted with a dangerous giddiness and frequent swimmings in the head, attended by loss of appetite, disordered stomach, and generally impaired health   Every means had failed to give me any permanent relief and at length it became so alarming that I was really afraid of going about without an attendant   In this melancholy condition I waited personally upon Mr Hughes, Chemist, Harlech, for the purpose of consulting him as to what I had better do, he kindly recommended your Pills, I tried them without delay, and after taking them for a short time I am happy to bear testimony to their wonderful efficacy   I am now restored to perfect health and enabled to resume my usual duties   You are at liberty to publish this letter in any way you may think proper

I am, sir, your obedient servant,
June 6 1852   (Signed)   JOHN LLOYD.

MIRACULOUS CURE OF DROPSY

Extract of a Letter from Edward Rowley, Esq, of India Walk Tobago, dated April 8th, 1852

To Professor HOLLOWAY:

Dear Sir—I deem it a duty I owe to you and the public at large to inform you of a most miraculous recovery from that dreadful disease, DROPSY and which, under God was affected by your invaluable Pills   I was tapped five times within eight months, and skilfully treated by two medical practitioners, but could not get cured until I had recourse to your remedy, and notwithstanding all I had undergone this miraculous medicine cured me in the course of six weeks

(Signed)   EDWARD ROWLEY

INFALLIBLE CURE OF A STOMACH COMPLAINT WITH INDIGESTION & VIOLENT HEAD-ACHES

Extract of a Letter from Mr S Gowen Chemist, of Clifton, near Bristol dated July 14th, 1852

To Professor HOLLOWAY

Dear Sir—I am requested by a Lady named Thomas, just arrived from the West Indies, to acquaint you that for a period of eight years herself and family suffered from continual bad health, arising from disorders of the Liver and Stomach   Indigestion, loss of Appetite violent Head aches, pains in the side, weakness and general debility, for which she consulted the most eminent men in the colony, but without any beneficial result   at last she had recourse to your invaluable Pills, which in a very short time effected so great a change for the better, that she continued them, and the whole family were restored to health and strength   Further she desires me to say, that she has witnessed their extraordinary virtues in those complaints incidental to children, particularly in cases of Measles and Scarlatina   having effected positive cures of these diseases with no other remedy

(Signed)   S GOWEN

These celebrated Pills are wonderfully efficacious in the following Complaints

Ague	Fevers of all kinds	Scrofula, or King's Evil
Asthma	Fits	Sore Throats
Bilious Complaints	Gout	Stone and Gravel

ANOTHER SCIENTIFIC WONDER!

GREAT CURE FOR

DYSPEPSIA!

Dr. J. S. HOUGHTON'S

PEPSIN,

THE TRUE DIGESTIVE FLUID, OR GASTRIC FLUID.

Prepared from RENNET, or the fourth STOMACH OF THE OX after directions of BARON LIEBIG, the great Physiological Chemist, by J S HOUGHTON, M D Philadelphia Pa.

"I DIGEST." Such is the true meaning of word PEPSIN. It is the chief element, or Great Digesting Principle of the Gastric Juice—the Solvent of the Food the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox thus forming a TRUE DIGESTIVE FLUID, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it.

This is NATURE'S OWN REMEDY for an unhealthy Stomach. No art of man can equal its curative powers. It contains no ALCOHOL, BITTERS, ACIDS or NAUSEOUS DRUGS. It is extremely agreeable to the taste and may be taken by the most feeble patients who cannot eat a water cracker without acute distress. Beware of DRUGGED IMITATIONS. Pepsin is NOT A DRUG.

Half a teaspoonful of Pepsin infused in water, will digest or dissolve Five Pounds of Roast Beef in about two hours, out of the Stomach.

SCIENTIFIC EVIDENCE.

The Scientific Evidence upon which this remedy is based is in the highest degree Curious and Remarkable.

Call on the Agent and get a Descriptive Circular, gratis, giving a large amount of Scientific Evidence, from Liebig's Animal Chemistry, Dr Combe's Physiology of Digestion, Dr Pereira on Food and Diet, Dr John W Draper, of New York University, Prof Dunglison's Physiology, Prof Silliman, of Yale College, Dr Carpenter's Physiology, &c., together with reports of cures from all parts of the United States.

PEPSIN IN FLUID AND POWDER.

Dr. Houghton's Pepsin is prepared in Powder and in Fluid Form—and in Prescription vials for the use of Physicians. The Powder will be sent by Mail free of Postage, for one Dollar, sent to Dr Houghton, Philadelphia.

OBSERVE THIS!—Every bottle of the genuine Pepsin bears the written signature of J S HOUGHTON M D sole proprietor, Philadelphia, Pa Copyright and Trade Mark secured.

Sold by all Druggists and Dealers in Medicines.—Price ONE DOLLAR per bottle.

Brown and Black ground in oil, 5½ cents per lb

Their WHITE ZINC PAINT, equal weight, covers, according to surface, from 40 to 100 per cent more surface than any other paint, retains its whiteness, brilliancy and protective qualities for years, is free from the poisons so dangerous in other pigments, to painters and tenants of newly painted rooms, and resists the sulphurous coal gases and foul air of ships, and as outside or inside paint does not tarnish or become yellow   Ground in varnish it forms a beautiful porcelain finish   The French Government has adopted Zinc Paint for all uses.

The BROWN AND BLACK ZINC PAINTS form directly a solid metallic coating on wood brick, iron &c admirable for fire proof qualities   They are unrivalled for rail cars, depots, Engines &c   For marine uses they resist the corroding of salt water and weather, so fatal to other paints

The Zinc and Fire Proof Paints are sold at wholesale and retail at the manufacturer's prices, by

DR. MORSE'S INVIGORATING CORDIAL!

FOR GENITAL DEBILITY, IMPOTENCY, INCONTINENCE OR NOCTURNAL EMISSIONS, &c.

The astonishing success which has attended this invaluable medicine, for *Loss of Muscular Energy, Physical Lassitude,* and *General Prostration,* or any of the consequences of youthful indiscretion, or indulgence of the passion in riper years, renders it the most valuable preparation ever discovered   In fact as a remedy for the above complaints it stands unrivalled and alone   There is no other reliable remedy, or any that has authentically received the sanction of the Medical Faculty   The WONDERFUL VEGETABLE PRODUCTION of which this medicine is composed has been tested, and its virtues proclaimed by the highest names of the faculty of London, Paris, and the chief cities of Europe, as well as by eminent Physicians in this country   It is the only infallible remedy for NERVOUS, HEAD and MIND COMPLAINTS—the mental physic so long sought for and never before found, the only agent that can administer to MIND DISEASES   It will remove all nervous affections, DEPRESSION EXCITEMENT, incapacity to study or business, loss of MEMORY CONFUSION, thoughts of Self Destruction, fear of insanity, &c.   It will restore the appetite, renew the health of those who have destroyed it by Sensual Excesses, or evil practices   It has been said by some that these disorders are incurable   This however is not the fact

DR. MORSE'S INVIGORATING CORDIAL, has and is constantly curing these complaints—relieving the mental and bodily incapacity of the unfortunate sufferer, as the following testimony of the various received will conclusively show

Dr Woodward of the Massachusetts Insane Hospital, writes of one of his patients being cured by using this cordial, thus — It gives me pleasure to inform you that one of my patients, while in Boston, procured some of your Cordial   He tells me that he has not had a single emission since he commenced taking it, while before he had two or three a week   When he applied to me, says Dr. W, I thought it hardly possible for him ever to regain his full strength   I prescribed the usual medicine used in those cases in the hospital, but they had no effect   In the meantime he purchased some of your Cordial, which has affected a cure I am sure no other medicine would   I shall ever recommend it whenever an opportunity occurs."

The nature of the maladies relieved by this Cordial are generally such as to leave the publication of certificates of cure out of the question, and the proprietor could produce host of the most convincing testimony to show that the great reputation it enjoys was not accidentally obtained, but is firmly based upon its positive and apparently miraculous virtues   In all directions are to be found the happy parents of healthy offsprings, who would not have been so but for this extraordinary preparation   And it is equally potent for many diseases for which it is recommended

THE MEDICAL JOURNALS—Have not in a single instance that has been authenticated, given their sanction to any other preparation for the above complaints   It has, in many violent and desperate cases effected radical cures after patients had been abandoned and their condition pronounced hopeless by medical practitioners of high professional character

THE COMMON EXPRESSION

Of those who have used this Extract is—"I had heard your Cordial highly spoken of but was one of the incredulous in regard to its merits having tried various medicines sold for the same purpose (different syrups, pills) without receiving any benefit   I had almost given up all hope of obtaining relief when I purchased one of your Cordial   I had no faith whatever of its benefits—but it has   I feel stronger, have had no emission since although it is but three weeks since I commenced taking the half a dozen bottles I took will cure me."

Another says—"I had consulted several distinguished physicians   Some said I could not be cured, others prescribed this thing and that, but I could not get any relief until I procured some of your Cordial   I must say it completely cured me."

At the same—"I was surprised at the effect your Cordial had   Why had I not heard of it before?   It would have saved me so much expense, besides years of mental and bodily suffering."

CAUTION—Ask for Dr Morse's Cordial and take no other   All others are imitations [illegible]

Dr M prepared to warrant a perfect cure in every case or take no pay

The Cordial is put up in pint bottles, with the words Dr Morse's Invigorating Cordial, blown on the glass   Price $3 per bottle, 2 bottles $5, 6 bottles $12, and $24 per dozen

To the readers of the Whig

Will you read the Truth.

A MEDICINE must have merit and great merit, too, to stand the test of public opinion   No art of puffing can galvanise a worthless article so as to keep it alive as a good medicine if it be not really so

A good medicine will live, become popular and extend its sales year after year, in spite of opposition   The people readily find out its virtues and its fame passes from mouth to mouth with more rapidity than newspapers can spread it   A living witness testifying to the cure that a medicine has made for him, is of far more service than any newspaper advertising

In proof of what we say above, we refer you to HAMPTON'S VEGETABLE TINCTURE and its effects   Its praise is in the mouths of multitudes   The best men in our country give their testimony to its wonderful cures   Among them we name Hon Henry Clay, Hon Richard M Johnson, Vice President of the United States, with hundreds of others   Capt. Thomas Canot—brother to the celebrated physician of the Emperor of France—was cured by it of a disease of seven years standing after the skill of the doctors of Europe and America had failed

In the United States Navy it is taken with great success, several officers being cured by it, officers of the Department, Washington, speak of its wonderful cures

In fact, the rich and the poor, young and old in every place, in the city and country, find the same success attends its use

HAMPTON'S VEGETABLE TINCTURE is purely vegetable, and warranted free from all mineral substances   This Tincture, by its mild, pleasant and safe action on the stomach liver kidneys, lungs, and the nervous system cures Dyspepsia, Liver Complaint, Diseases of the Urinary Organs, Coughs, Asthma, Bronchial Affections, Consumption, Scrofula, King's Evil, Worms, Rheumatism, Gout, Neuralgia, St Vitus Dance, Fits, Nervous Affections generally, Fistula, Piles, Bowel Complaints with all diseases arising from impure blood   As a remedy for the various derangements of the female system, it seems to have no superior

What we ask of the public, in introducing this valuable medicine, is to throw aside their prejudices and give it a fair trial   We shall publish in this paper from time to time, testimony from persons whose reputation is known throughout the United States and who have been entirely cured when other medicines have failed   It is no humbug and the public will be satisfied that what we say is TRUE after a fair trial

How the Discovery of the Vegetable Tincture was made.

DR HAMPTON now in his 70th year was early in life much reduced by disease, had spent much of his living in medical advice, and grew nothing better, but worse, when finding that none of the mineral medicines could reach his case he came to himself, and thought why should I die with disease when the Creator has provided in his vegetable kingdom that which will make me whole again?   I will go and search out those roots and herbs which I have seen the Indians and the early pioneers give for the cure of disease   I will so compound them so to increase or decrease the quantity of each until I get such a medicine as shall cure me of my disease   The doctor carried out his noble resolution, brought to his aid the experience of the Red Man, and all others from whom any thing could be learned of the healing powers of the roots of the vegetable kingdom   In a short time, as by magic, the Doctor was cured of his disease   The fame thereof spread abroad, his neighbors sent far and near for this wonderful discovery which was freely given to them, and all took with the same success until the demand became so great that the Doctor could not in justice to himself and without great pecuniary loss, supply the demand gratis, which induced him reluctantly by the advice of his friends to put a small price on his Vegetable Tincture which was cheerfully paid, and considered but small indeed to the amount of good received by those who took his medicine—the most wonderful discovery in the healing art of the age

The world cannot produce Stronger Evidence!

Than this kindly handed to us by J Stockbridge, Esq, of the Fountain Hotel, Light street, a gentleman extensively and favorably known   The writer of the letter, Capt Canot, is the brother of the celebrated physician to Louis Napoleon, President of the French Republic   Numerous of our most respectable citizens will give equally strong testimony in its favor

Hampton's Vegetable Tincture

It is a most certain cure for Dyspepsia, Scrofula, Liver Complaint, &c, and all diseases from impure blood

BALTIMORE, June 4 1852

Mr Stockbridge, of the Fountain Hotel, Light st

Dear Sir—Being on the point of leaving the city, I avail myself of a few idle moments to thank you kindly for the medicine you sent me, and which has restored me to the use of my hands   I beg you to send me four bottles more to carry on my voyage   Since I had the fortune to use Dr Hampton's Vegetable Tincture my confidence is so strong that, in gratitude to the proprietors of the medicine, I beg you to present my respects to them and induce them to make it more publicly known as a sure Rheumatic cure   Having called on me, on the 19th of April last and seen me prostrated on my bed useless in all my limbs, you can appreciate nearly as well as myself the prompt relief I received from Dr Hampton's Tincture, and I am positive had it not been for your strong and forcible recommendations I should still have been in bed   It is really a pity this specific should not be approved by medical men and like all patent drugs it should suffer the imputation the public generally give to such preparations   I myself who was averse to a patent specific, took this medicine with reluctance, and without confidence in it, and it was only through your disinterested friendly recommendation, and my critical situation that induced me to try this really beneficial Vegetable Tincture

You may inform Messrs Mortimer & Mowbray that they are at liberty to make use of my name in the support of the good effects of Dr Hampton's Vegetable Tincture, as it has cured me, in five weeks, of a chronic inflammatory Rheumatism, contracted under tropical climates and of 7 years periodical duration   I have only used three bottles, and find that even the deformed parts of my hands are fast returning to their former natural appearance

I have been under the treatment of several physicians in London and Paris without any apparent benefit, also, while in New York having tried the Thompsonian and Homoeopathic remedies after having been tormented with galvanic batteries, cold and aromatic baths and hundreds of internal and external remedies, all to no effect, I am so far cured by this Hampton's Vegetable Tincture only   Therefore, my dear sir, accept of the assurance of my gratitude, and believe me your well wisher,
THOS CANOT

Cure of Consumption, Neuralgia Pain in Side, &c.

BALTIMORE May 1 1852

Messrs Mortimer & Mowbray—Gentlemen—It is with pleasure I can testify to the great healing powers of Hampton's Vegetable Tincture   My wife had been afflicted for three years, laboring under a constant hacking cough with a most violent pain in the right side, neuralgia of the head and dimness of sight, very little rest day or night and much emaciation, and to all appearances a rapid consumption inevitable   We had the most eminent physician in Annapolis but his medicine did not give her any relief at all but growing worse if any change in the least; and having read one of your pamphlets in July last she concluded to try Hampton's Vegetable Tincture and after taking but two bottles of which (under a kind Providence) we perceived a great change for the better, her appetite improved, her skin became clear, coughs, pains, neuralgia, &c, entirely left her, and by the time she had taken a few bottles more she was completely cured, and is now in the enjoyment of excellent health

Respectfully, EDWARD SANDS,
Master of sch Gen Barbour Annapolis Packet No 3, Tobacco Warehouse, Light Street Wharf
